

OpenLP 103

Setup for Home & Church

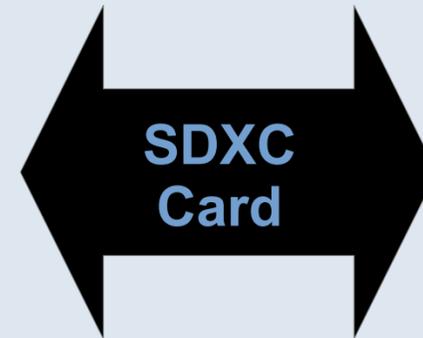

"There's Always Hope!"

Setup for Home & Church

Laptop at
Home
or
Classroom
(Window
11/10)

Overhead
Projector
PC at
Church
(Window
11/10)

OpenLP and all needed Software can be install on a Portable Apps SDCX card to develop Service at home, church, & etc; to run on Overhead PC at church

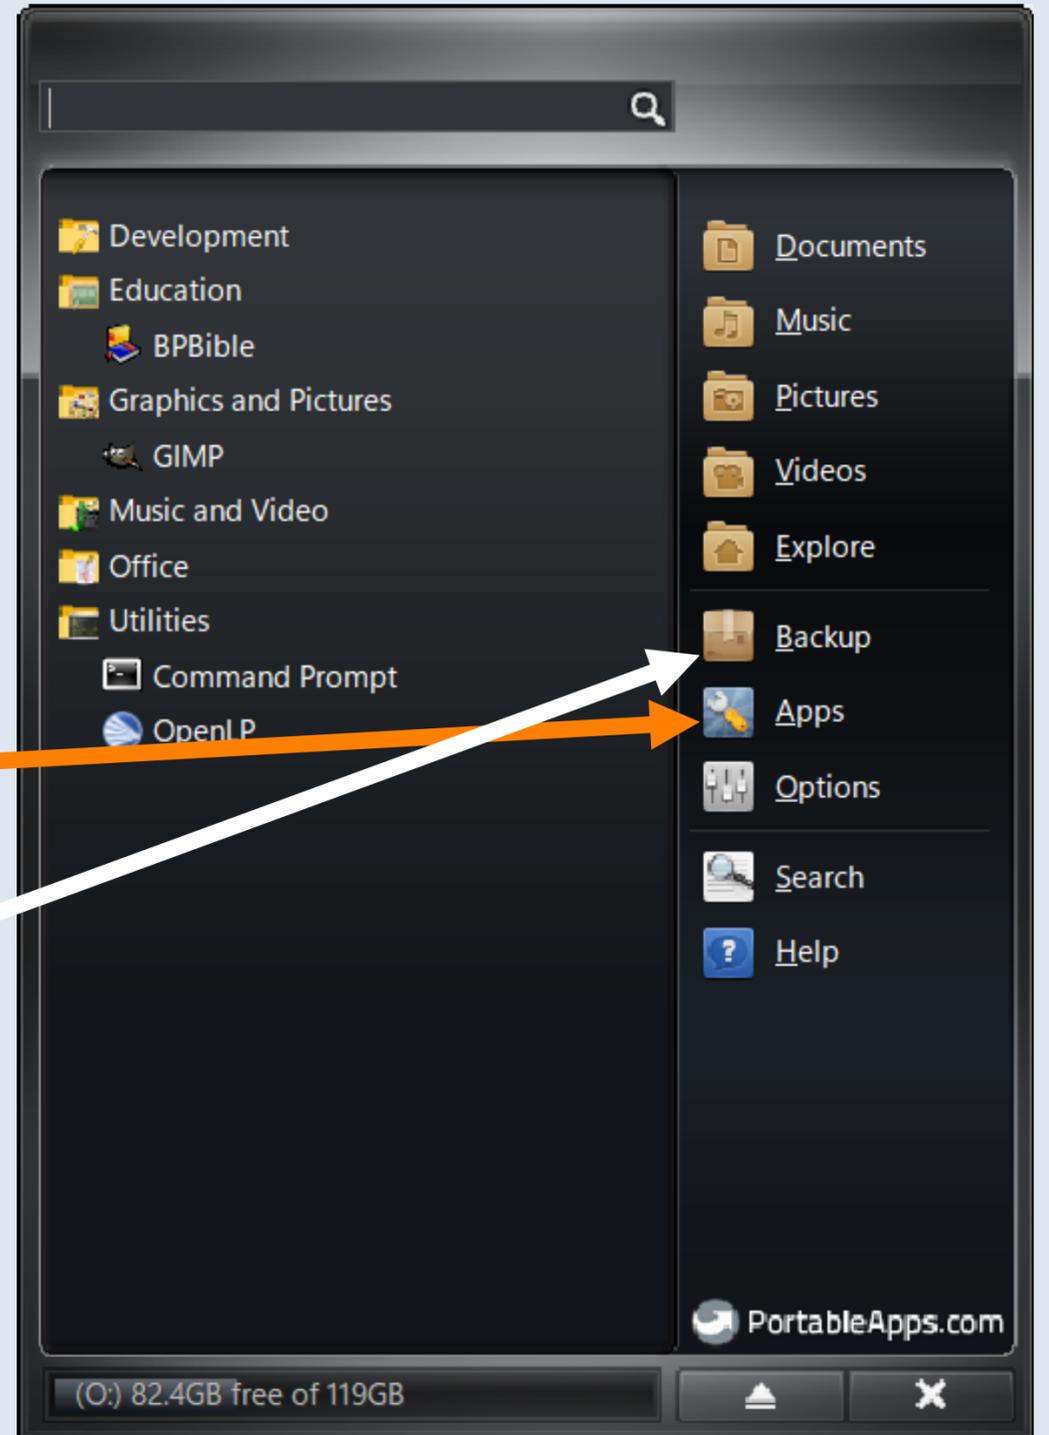

PortableApps.com

- OpenLP and supporting Software can be installed on a SDXC disk or USB, allowing easy transportation of developed Services at home to take to church for OpenLP presentation using Portable Apps.com
- Suggested Apps to install on the PortableApps SDXC disk are:

- (1) OpenLP (download & install “Portable Version” from <https://openlp.org>)
- (2) GIMP, OpenShot, VLC Media Player, Libre Office, & Command Prompt applications (download & install with Apps button
- (However, first download & install PortableApps from <https://portableapps.com>)

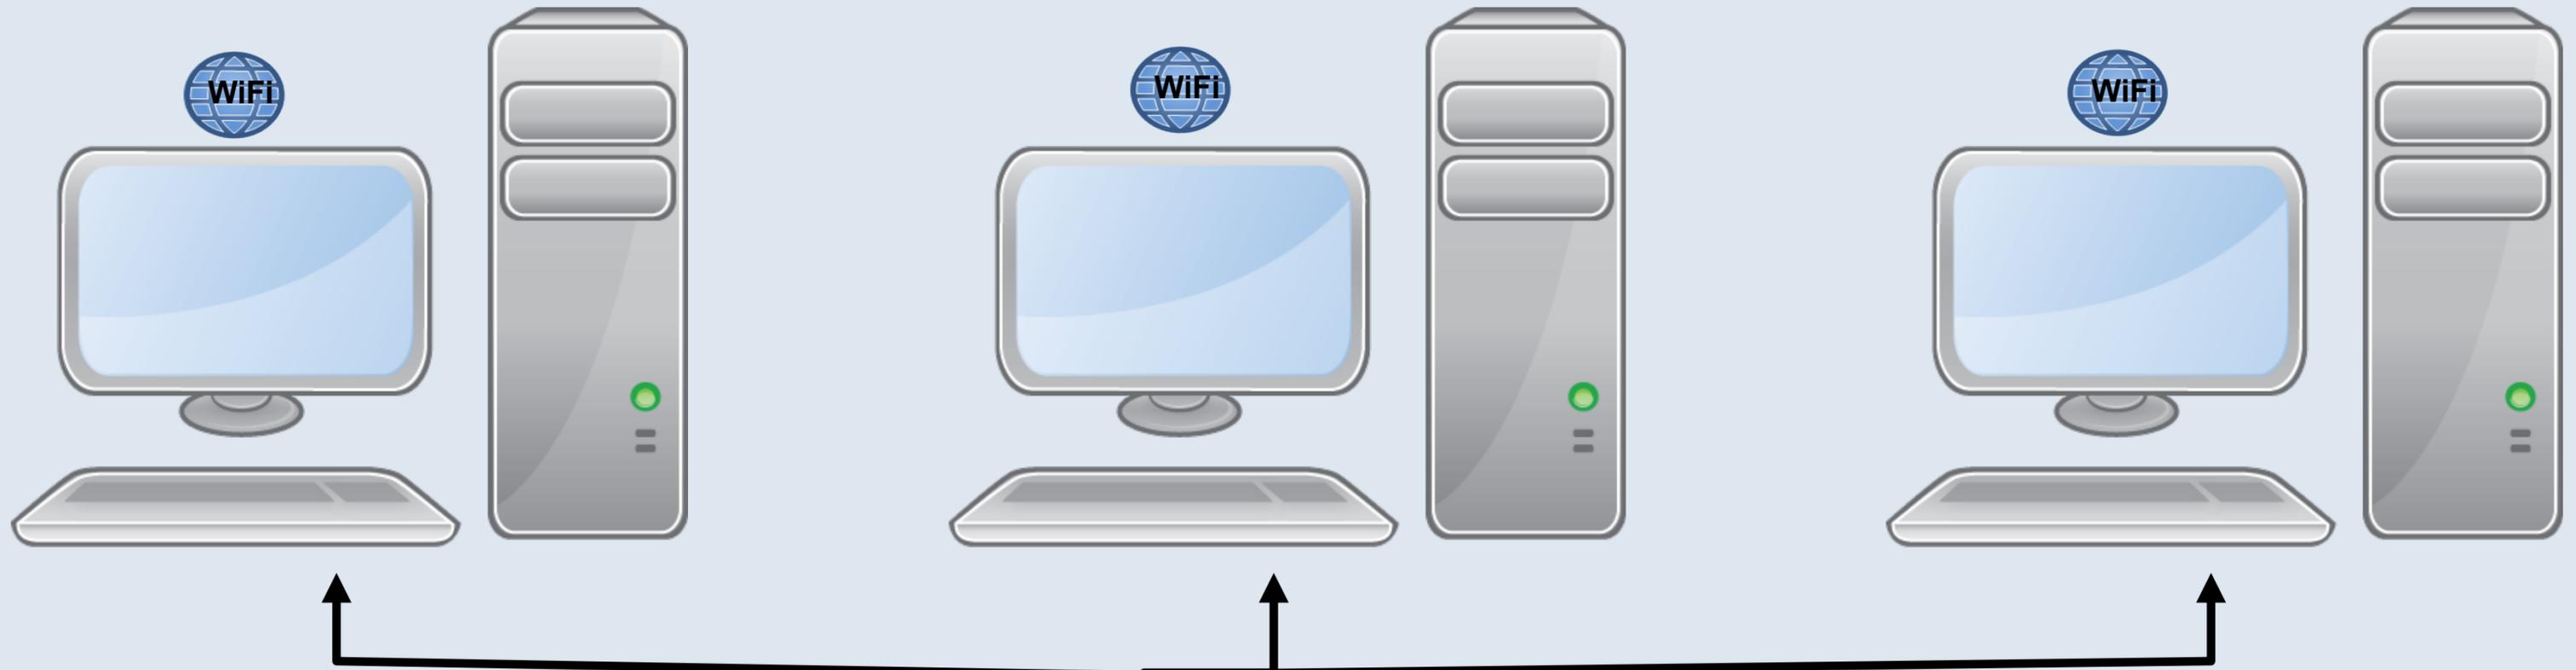

NOTE

Portable Apps has a great “Backup”

OpenLP on Church Network Example

WWW = World Wide Web

 = OpenLP Wireless Local Area Network (LAN)

OpenLP 108 Training gives basic instructions for setting up WIFI LAN for OpenLP Network

OpenLP 109 Training gives basic instruction for how to setup devices on the OpenLP Network
